Target Role: Data Analyst (Product & Customer Analytics)

Company: Owlsh

Subject: Application for Data Analyst (Product & Customer Analytics) - Kartik Bhatt

Dear Hiring Manager,

I am excited to apply for the Data Analyst (Product & Customer Analytics) position at Owlsh. With over 3.5 years of experience at KPMG and GlobalLogic, I specialize in process automation, Power Platform ecosystems, and Copilot AI agents.

At KPMG, I built a complete Power Platform solution driving 20,000 reach outs annually and architected automated GenAI workflows.

At GlobalLogic, I engineered QA frameworks for Google's GenAI training datasets, lifting delivery quality from 74% to 95%.

I welcome the opportunity to bring this technical expertise to Owlsh. Thank you for your consideration.

Sincerely,

Kartik Bhatt
