Target Role: PHONEPE LIMITED Product Operations Analyst

Company: Phonepelimited

Subject: Driving Operational Excellence & Scalable Solutions as PHONEPE LIMITED Product Operations Analyst

Dear Hiring Manager,

I am writing to express my strong enthusiasm for the PHONEPE LIMITED Product Operations Analyst position at Phonepelimited. With over 3.5 years of experience across KPMG and GlobalLogic specializing in operational data analysis, process automation, and KPI dashboarding, I have consistently turned complex datasets into actionable business solutions. PhonePe's reputation for building high-scale digital platforms that empower over 70 crore registered users aligns perfectly with my drive to build robust operational frameworks from scratch and solve high-impact problems with speed and precision.

In my role as an Analyst at KPMG, I demonstrated a deep ability to analyze operational data, automate reporting mechanisms, and build data visualization tools that optimize efficiency. By architecting automated workflows across Power BI, SharePoint, and Power Apps, I eliminated redundant manual processes and saved over 2,000 hours annually. Additionally, I regularly performed Audit Market Share (AMS) analysis across 6+ sectors, extracting key operational trends to guide strategic decisions, while administering system data for over 10,000 members with rigorous attention to quality and governance.

Prior to KPMG, my experience as an Associate Analyst at GlobalLogic focused heavily on data quality assurance, trend evaluation, and process standardization for major clients like Google. I designed QA protocols that reduced data entry errors by 25% and boosted delivery quality metrics from 74% to 95%. Utilizing tools like SQL, Excel, and automated scripts, I streamlined raw data ingestion and structured documentation across 10+ projects, ensuring cross-functional teams had reliable data for critical decision-making.

Joining Phonepelimited presents an incredible opportunity to leverage my expertise in SQL, Excel, dashboarding, and process automation to elevate Product Operations within the Insurance Business. I thrive in fast-paced environments where ownership and speed-to-execution are paramount. Thank you for your time and consideration. I welcome the opportunity to discuss how my analytical skills and automation background can add immediate value to the PHONEPE LIMITED Product Operations Analyst team.

Sincerely,

Kartik Bhatt
