Target Role: Senior Full-Stack SharePoint & Microsoft Power Platform Developer

Company: Techylla

Subject: Driving Operational Excellence & Scalable Solutions as Senior Full-Stack SharePoint & Microsoft Power Platform Developer

Dear Hiring Manager,

I am writing to express my strong interest in the Senior Full-Stack SharePoint & Microsoft Power Platform Developer position at Techylla. With over 3.5 years of hands-on experience driving enterprise digital transformation, automating business workflows, and developing low-code/no-code applications across KPMG and GlobalLogic, I offer a proven track record of converting complex operational requirements into scalable digital solutions.

During my tenure at KPMG, I architected and deployed enterprise-grade SharePoint Online and Power Platform solutions, including an automated reach-out system spanning 30+ member firms that saved 1,200 hours annually, as well as an SPO list migration platform covering 45+ business pillars governed by custom Power Automate flows. Additionally, I built multi-modal GenAI Copilot agents and VBA macro solutions that altogether delivered over 2,000 hours of annual efficiency gains. My expertise directly aligns with Techylla's requirements for custom SharePoint architecture, Power Platform automation, and advanced data governance.

At GlobalLogic, working on high-stakes client engagements including Google, I spearheaded content engineering and QA workflow design for GenAI training datasets, improving delivery quality from 74% to 95% and reducing data error rates by 25%. This experience honed my abilities in process optimization, documentation standards, and rigorous quality assurance across complex data systems.

I am eager to bring my deep expertise in SharePoint Online, Power Apps, Power Automate, and Copilot Studio to Techylla to help accelerate your digital solutions roadmap. Thank you for your time and consideration; I look forward to discussing how my background in full-stack SharePoint development and automation can contribute to Techylla's continued success.

Sincerely,

Kartik Bhatt
