Dear Hiring Manager,

I am excited to apply for the Founding Product Manager position at Weekday AI (YC W21). With over 3.5 years of experience at KPMG and GlobalLogic, I specialize in process automation, Power Platform ecosystems, and Copilot AI agents.

At KPMG, I architected automation systems that saved over 2,000 hours annually and led migrations across 45 pillars. At GlobalLogic, I engineered QA frameworks for Google's GenAI datasets, lifting project quality from 74% to 95%.

I look forward to bringing this operational and technical expertise to Weekday AI (YC W21) to drive scalable outcomes.

Sincerely,

Kartik Bhatt
