Target Role: Business Analyst

Company: HYrEzy Tech Solutions

Subject: Application for Business Analyst - Kartik Bhatt

Dear Hiring Manager,

Dear Hiring Manager, I am writing to express my strong interest in the Business Analyst position at HYrEzy Tech Solutions. With over 3.5 years of cross-functional experience driving business process automation, data analytics, and stakeholder alignment at KPMG and GlobalLogic, I specialize in translating complex business requirements into scalable technical solutions that optimize operations and deliver measurable ROI.

At KPMG, I served as a key Analyst across 13 business sectors, leading end-to-end solution design and stakeholder management. I architected complete Power Platform solutions that facilitated 20,000 annual reach outs across 30+ global member firms and saved 1,200 hours annually. Additionally, I spearheaded legacy data migrations to automated SharePoint list integrations and designed AI agents that cumulatively saved over 2,000 hours per year while managing 100+ RFP/RFI responses.

During my tenure at GlobalLogic, I focused on process engineering and quality assurance for client engagements including Google. I established robust process documentation across 10+ projects, designed QA workflows that reduced data entry errors by 25%, and boosted onshore delivery quality from 74% to 95%. This background equips me to rigorously analyze business workflows, capture requirements, and deliver clean, actionable analytics.

HYrEzy Tech Solutions' commitment to scalable tech innovation aligns seamlessly with my dedication to operational excellence and continuous improvement. I welcome the opportunity to discuss how my technical expertise in Power Platform, SQL, and process optimization can contribute to your business analysis goals. Thank you for your time and consideration.

Sincerely,

Kartik Bhatt
