Target Role: Blend360 Senior Campaign Data and Operations Analyst

Company: Blend360

Subject: Driving Operational Excellence & Scalable Solutions as Blend360 Senior Campaign Data and Operations Analyst

Dear Hiring Manager,

I am writing to express my strong enthusiasm for the Senior Campaign Data and Operations Analyst position at Blend360. With over 3.5 years of experience leveraging Python, SQL, process automation, and analytical tools to streamline data operations across KPMG and GlobalLogic, I am drawn to Blend360's mission of blending human expertise with artificial intelligence to deliver high-impact client solutions.

During my tenure as an Analyst at KPMG, I specialized in architecting end-to-end data systems and automating complex workflows. I developed custom Power Platform and automated solutions that serviced 30+ member firms across 13 sectors, saving over 2,000 hours annually. Furthermore, my hands-on experience using Python and SQL to clean messy datasets, perform market share analyses across 6+ sectors, and govern enterprise repositories of 30,000+ assets directly aligns with your requirements for campaign data operations, data mapping, and performance analytics.

Previously at GlobalLogic, I supported client initiatives for Google by building robust data quality assurance frameworks and managing dataset operations for AI models. By implementing standard operating procedures and data validation rules, I reduced data entry errors by 25% and improved onshore project delivery quality from 74% to 95%. This background in dataset accuracy, pilot leadership, and cross-functional operations ensures I can immediately contribute to Blend360's campaign audience selection, execution validation, and performance reporting workflows.

Blend360's commitment to unlocking value through data-driven strategy aligns perfectly with my analytical toolkit and passion for operational excellence. I welcome the opportunity to discuss how my technical background in Python, SQL, automation, and data operations can add immediate value to your Digital Prospects Marketing retainer. Thank you for your time and consideration, and I look forward to connecting soon.

Sincerely,

Kartik Bhatt
