Target Role: Senior Business Analyst (Bengaluru)

Company: Sberbank India

Application for Senior Business Analyst (Bengaluru) - Kartik Bhatt

Dear Hiring Manager,

Dear Hiring Manager, I am writing to express my strong enthusiasm for the Senior Business Analyst position at Sberbank India in Bengaluru. With over 3.5 years of cross-functional experience across KPMG and GlobalLogic, I have specialized in process automation, GenAI/Copilot integrations, data analytics, and stakeholder management. I am eager to bring my expertise in transforming legacy workflows and delivering scalable business solutions to Sberbank India's growing operational footprint.

During my tenure as an Analyst at KPMG, I spearheaded digital transformation initiatives across 13 sectors that resulted in over 2,000 hours saved annually. I conceptualized and deployed full-stack Power Platform workflows reaching 20,000 members across 30+ firms, built multi-modal Copilot agents for automated metadata tagging, and governed complex SharePoint structures for 10,000+ users. Additionally, my hands-on work with RFP/RFI responses, Audit Market Share analysis, and SQL-backed business intelligence aligns directly with the strategic requirements of a Senior Business Analyst.

Prior to KPMG, as an Associate Analyst at GlobalLogic, I drove key project operations for global clients like Google, elevating project delivery quality from 74% to 95%. I authored robust process documentation across 10+ projects, designed data validation QA frameworks that reduced errors by 25%, and led multiple pilot initiatives that successfully beat out major MNC competition. My background combines deep analytical rigor with practical change management experience.

Joining Sberbank India in Bengaluru presents an exciting opportunity to apply my automated solution design, requirement gathering, and analytical capabilities to accelerate your business goals. I would welcome the chance to discuss how my skill set in process engineering and digital transformation aligns with your team's objectives. Thank you for your time and consideration, and I look forward to hearing from you.

Sincerely,

Kartik Bhatt
