PROFESSIONAL SUMMARY

Results-driven Business Analyst with 3.5+ years of experience leading process automation, data analytics, and operational governance across cross-functional enterprise projects. Proven track record at KPMG in driving automated reporting solutions, performing market share and audit analyses, and implementing Power Platform and GenAI workflows saving 2,000+ hours annually. Skilled at bridging business needs and technical solutions through Power BI, SQL, Power Automate, and rigorous data governance. Adept at managing multi-sector stakeholders to ensure accurate, compliant, and timely reporting solutions for Infosys.

CORE COMPETENCIES

Business Analysis • Regulatory Reporting • Process Automation • Power BI • SQL • Power Automate • Stakeholder Management • Data Analytics • Audit Analysis • Governance • Change Management • Quality Assurance • SharePoint Online • Process Documentation

EDUCATION

Maharaja Surajmal Institute | Bachelor of Computer Applications (Computer Science) | **GPA: 9.3/10 (Top 1%)**

WORK EXPERIENCE

KPMG | Analyst — Knowledge Management | Gurugram (May 2024 – Present | ~3.5+ yrs total exp)

Led cross-functional projects across 13 sectors demanding 360-degree stakeholder management & business development.

Key Projects

- Architected and deployed a comprehensive Power Platform solution (Power Automate, SharePoint, Power Apps, Power BI) enabling 20,000 annual reach outs across 30+ member firms in 13 sectors, eliminating manual overhead and saving 1,200 hours per year.
- Engineered an end-to-end data migration and governance framework transitioning legacy Excel data for 45+ operational pillars to SPO lists, backed by 3 custom Power Automate flows for automated alerts, change management, and granular permission governance.
- Built and optimized multiple VBA macro solutions to automate automated repository updates across 30,000+ global assets, enforcing change management protocols and delivering 485 hours in annual time savings.
- Designed a multi-modal GenAI Copilot agent to clean unstructured data, auto-draft fields, and apply strict metadata tags aligned with enterprise compliance guidelines, saving 325 hours annually.
- Administered central contact management architecture for 10,000+ KGS members and managed digital content distribution across 15 libraries containing 5,000+ assets with strict permission controls.

Business Development & Operations

- Delivered 2,000+ hours of operational savings annually by championing digital transformation initiatives using Power Platform, Copilot Studio, and VBA automation.
- Evaluated and responded to 100+ RFP/RFI requests while managing over 100 internal SharePoint site pages to align with corporate reporting and branding standards.
- Executed comprehensive Audit Market Share (AMS) analyses across 6+ business sectors to support strategic reporting and executive decision-making.
- Resolved 50+ SharePoint governance and administration requests, managing term stores, change requests, metadata structures, and access level controls.

Key Achievements: Awarded 'KUDOS' twice — for Lean Six Sigma efficiency (2,000+ hrs saved) and for migrating legacy VBA/Excel practices to GenAI agents & Power Platform — plus 'Super Team', 'Ally of Inclusion', and 'Gurus@Work'.

GlobalLogic Technologies Private Limited | Associate Analyst — Content Engineering | Gurugram (Sep 2022 – Oct 2023)

- Formulated robust process documentation, standard operating procedures, and QA workflows for Google GenAI Android search dataset initiatives.
- Designed and executed targeted QA processes for complex data entry, reducing error rates by 25% and ensuring high data integrity across client deliverables.
- Maintained full life-cycle process documentation across 10+ concurrent projects, ensuring regulatory compliance and improving onshore delivery quality from 74% to 95%.
- Executed QA checks on 500+ data assets weekly and spearheaded 3 successful pilot projects, securing full project awards over competing tier-1 MNC firms.
